

Sports Premium Grant

“Schools must spend the additional funding on improving their provision of PE and Sport, but they will have the freedom to choose how they do this” (DfE June 2013)

“Schools will also be required to include details of their provision of PE and sport on their website alongside details of their broader curriculum, so that parents can compare sports provision between schools, both within and beyond the school day” (DfE June 2013)

At Highfields we believe PE and Sport plays an important role in our school vision to deliver the highest possible standards of education and care to all our pupils. PE and sport has the potential to change children’s lives for the better and helps children understand rules and how to play fairly. Highfields is committed to using the Sports Premium Grant to improve outcomes for children.

Through PE and Sport our children learn to develop the important qualities of discipline, resilience, communication, team work and ambition, leading to improved concentration, attitude and academic achievement.

At Highfields during the academic year 2015-2016 we use the Sports Premium Grant to run sports based activity clubs at lunchtime by outside providers. We believe that these clubs enable children to have positive, active lunchtimes and ensure that the children are interacting with a wider group of specialist adults. Current activities are dance, football, fit squad and taekwondo. There is also a weekly club that prepares children for competitions.

In addition Sports Premium Grant has been used to purchase a scheme of work, Real PE, which enables class teachers to deliver high quality PE lessons.

Year 4 and 5 children have a weekly swimming lesson at Adwick Leisure Centre; any child in Y6 that cannot swim 25m also is invited to attend these lessons. Swimming and the transport is partially funded from the Sports Premium Grant.

Impact – The sports premium grant showed impact across the year. This was evidenced with the number of children choosing to participate in activities on a lunchtime, which significantly decreased incidents and children feeling like they do not know what to do or who to play with during their break. Highfields entered competitions in rounders and athletics which were thoroughly enjoyed by the key stage 2 children and they all returned asking when the next competition would be!

The Real PE scheme of work has provided teachers with high quality P.E lessons which incorporates physical activity alongside other essential skills such as cognitive thinking, social, personal and creative skills. The clear, supported lesson plans have resulted in teachers feeling much more confident in delivering PE lessons using the accurate skills.
