

TOPIC WEB – Year 1 Moon Zoom – Spring 1 2018

COMPUTING

- Drawing Software
- Algorithms
- Email
- Photo Stories

SCIENCE

- Properties of Everyday Materials
- Working Scientifically

ENGLISH

- Posters
- Character Profiles
- Non-chronological Reports
- Adverts
- Science Fiction

HISTORY

- Significant people – Astronauts
- Changes within Living Memory

MUSIC

- Space sounds; space themed songs

D&T

- Design and make space themed vehicles
- Evaluating toys
- Using mechanisms

ART

- Models of the Solar System

PSHCE

- Aspirations and Goal Setting

MATHS

- Position and Direction

GEOGRAPHY

- Satellite images

PE

- Dance

Moon Zoom – The children will have to find out what object might have landed in our playground by exploring a craft and investigating scattered scientific specimens. We will learn about materials in Science and then create a ‘Welcome to Earth’ box for an alien explorer to help explain what life is like on our planet. We’ll be finding out about the names of the planets and creating models of them, as well as creating air-propelled rockets, seeing how far we can make them travel. This is a cross curricular topic with lots of design and technology, art and scientific experiments Year 1 should really enjoy!
